

INDULGE. CONSERVE. REPEAT.

Introduce your homeowners to H₂Okinetic Technology®

This jetted shower is delightfully indulgent. Yet, it's efficient too. Thanks to Delta's exclusive H₂Okinetic Technology incorporated into every body spray. By controlling the water's shape, velocity, and thermal dynamics, H₂Okinetic Technology produces bigger water droplets for a warmer, more luxurious spray that blankets the body while using 36% less water.* So homeowners can indulge again and again without waste. Another way that Delta is more than just a faucet.

deltafaucet.com/H2O_Kinetics

*Computation based on comparison of body sprays that have a flow rate of 2.5 gpm under ASME A112.18.1.
